This is a declaration for TCO Cert applicants/operators who have farmed their land for less than 3 years prior to applying for certification or are adding land to their certified organic operation. The corresponding farm map must have matching field numbers and legal land descriptions. It is essential that the field histories be filled out completely, with all previously used inputs listed, including soil and crop treatments such as fertilizers, pesticides and seed treatments. Please note if a Genetically Engineered crop was grown or if the land was idle and not farmed.
