### Seed Cleaner Affidavit

This form needs to be completed by producers who are using an off-farm seed cleaner without Attestation or agreement to be inspected as part of the producer’s annual inspection. **Organic seed cleaned in such a facility will lose its certified status and therefore cannot be sold with an organic claim.** The seed may still be used for seeding on-their own farm. Please note that as owner of the organic product, it is your responsibility to ensure that your organic product is protected from comingling and contamination (contact with unpermitted substances) and is not compromised while being handled by this seed cleaning operation. Please complete this form in its entirety in conjunction with the seed cleaner representative and ensure that signatures and dates have been included. Please submit this form to TCO Cert.

 Cleaning  Sorting/Grading   
 Other services provided (please describe):

\_\_\_\_\_ Date  
 Seed Cleaner Representative Signature

I affirm that organic seed cleaned at an off-farm seed cleaning facility without Attestation or agreement to get inspected as part my annual inspection will lose its certified status. The seed may still be used for on-farm seeding **but may not be sold with an organic claim.** It is understood that this seed must be stored separately from any other organically certified products in this operation to prevent comingling. **Detailed records of its disposal must be maintained.**
