Non-GE Affidavit and Declaration of Seed Treatments

This affidavit must be completed for all seeds and planting stock other than certified organic seed/planting stock. It must be maintained with audit trail documentation and be available for the Verification Officer to review at the time of inspection, along with seed tags, invoices and product information for the seed/planting stock treatment, if applicable. If this affidavit is not on file at the time of inspection or was not submitted to TCO Cert, the certification process may be delayed, or, ultimately, result in denial of certification.

I, _____ have sold/traded the following to _____.
 (name of seller) (name of buyer)

Please list all items, including seed, seedlings, transplants, inoculants, fertility inputs, pest/disease control inputs, livestock supplements, livestock healthcare products, nonorganic agricultural ingredients, processing aids, non-agricultural ingredients, etc.

Type of Seed or Planting Stock	Source of Seed or Planting Stock	Is seed or planting stock treated/coated?	If yes, list full product name of treatment(s)/coating(s):
		Yes No	
		Yes No	
		Yes No	
		Yes No	
		Yes No	
		Yes No	

All inputs, including seed treatments and coatings, used or planned for use must be reviewed and approved by TCO Cert prior to use.

I affirm that, to the best of my knowledge, the seeds or planting stock listed above were not produced using genetic engineering techniques. I further affirm that they were not derived from genetically engineered organisms. I also affirm that, to the best of my knowledge, the seeds or planting stock are **not TREATED OR COATED** with anything other than substances listed above.

Signature of seller *Date*

Signature of buyer *Date*

This affidavit is a signed affirmation between the seller and the TCO Cert operator. It does not guarantee the purity of seed, input, or ingredient. The buyer is encouraged to take every precaution before purchasing the seed, input, or ingredient to ensure its purity and are encouraged to buy only materials that have been tested. This will help protect the producer when the product is sold.
