# Seed Cleaner Affidavit

This form needs to be completed by producers who are using an off-farm seed cleaner **without** Attestation **or** agreement to be inspected as part of the producer's annual inspection. **Organic seed cleaned in such a facility will lose its certified status and therefore cannot be sold with an organic claim.** The seed may still be used for seeding on-their own farm. Please note that as owner of the organic product, it is your responsibility to ensure that your organic product is protected from comingling and contamination (contact with unpermitted substances) and is not compromised while being handled by this seed cleaning operation. Please complete this form in its entirety in conjunction with the seed cleaner representative and ensure that signatures and dates have been included. Please submit this form to TCO Cert.

_____ of _____
Name of Seed Cleaner Representative contracted by: | Name of Contracted Seed Cleaning Operation

_____ of _____
TCO Cert Producer /Number | Name of Farm Operation

To clean the following organic product(s):

on _____
Date

Did cleaning of the plant occur prior to cleaning organic seed? ☐ Yes ☐ No

Cleaning methods used:

The following services were provided:

Cleaning ☐ Sorting/Grading ☐

Other services provided (please describe):

_____ _____
Seed Cleaner Representative Signature | Date

I affirm that organic seed cleaned at an off-farm seed cleaning facility without Attestation or agreement to get inspected as part my annual inspection will lose its certified status. The seed may still be used for on-farm seeding **but may not be sold with an organic claim.** It is understood that this seed must be stored separately from any other organically certified products in this operation to prevent comingling. **Detailed records of its disposal must be maintained.**
