FIELD MANAGEMENT SUMMARY 2026

Please note that this Field Management Summary (FMS) replaces the old FMS where we ask for the past 3 years's information. Since we already have the previous 2 years' data, we only need this year's information. If you are a first time applicant or are an existing operator adding new fields please use the " ***FMS - New Fields*** *" form.*

Field numbers and Plot identification must correspond with numbers/identification on OSPAU, maps, and last year's FMS.

List all inputs including fertilizers and manure, insecticides, herbicides, seed treatment and soil builders used or planned and include the date applied.

Name:		**Operator Number:**	

Use one line per field. To insert a line in this Excel spreadsheet, right-click on the row number on the left side. Select "Insert" and a line will automatically be added. The document will continue on the next page if needed.

Field Number/ Plot ID	Number of Acres				Crop Year:	2026	
	Organic	Transitional	Conventional	Ecological/ Non-Productive	Crop	Inputs Used:	
						Name & Type	Date Used
Total Acres	**0**	**0**	**0**	**0**
