

## Off-Farm Grain Dryer Cleanout Affidavit

*Please complete this form in its entirety and submit to TCO Cert.*

I, \_\_\_\_\_ have used an off-farm grain dryer equipment to dry my organic grain.  
 (client name)

I have supervised and verified the equipment cleaning prior to use with the organic grain.

I understand that as the owner of the organic product it is my responsibility to ensure that the organic product is not compromised while being handled by this grain drying process and the integrity of the organic product is always maintained and protected from any risk of contamination and comingling with nonorganic product.

I also understand I need to maintain cleanout records for the dryer, auger, holding bin, and trucks as applicable, and bin records to reflect the in/out movement of the grain from my organic farm to the off-site grain dryer and back.

Name of TCO Cert organic client	of	TCO Cert Operator Number
Organic product(s) dried: _____		
Date of Drying: _____		
Name of Equipment Owner		
Did cleaning/purging of the equipment occur prior to drying organic seed? <input type="checkbox"/> Yes <input type="checkbox"/> No		
Cleaned by: _____		
Cleaning methods used: _____		

I affirm that the organic grain dried at an off-farm grain dryer has been under my continuous management and supervision to maintain organic integrity. I also understand that TCO Cert may choose to include the grain dryer equipment in my annual inspection. **Detailed records of its drying must be maintained.**
